

10 X BETTER

THE DELTONES

London's THE DELTONES have the distinction of being the world's only all-girl band with a male member, but somehow that doesn't seem to bother Jeremy! Formed in 1983, THE DELTONES are a ten-piece SKA/BLUEBEAT band who began their live career in 1985 and have since established an enthusiastic following both at home and abroad. They have toured Holland, Germany, Switzerland, Italy and Belgium-but it is in France that THE DELTONES have become national musical heroines and this has led to five tours in the past 18 months. In fact when it came to record their last debut LP, THE DELTONES chose to go to Paris where noted French producer Didier Le Marchand translated the bands ideas into the lush powerful dance LP 'NANA CHOC CHOC IN PARIS'.

'NANA CHOC CHOC IN PARIS' was first released in November in France on the Parisian label Boucherie, and London's Unicorn Records released it in the UK.

During this Spring THE DELTONES were featured throughout the final show of 'Motormouth' and a BBC Southeast feature on the New Ska music, not to mention the 'Rapido' programme which focussed on the making of their LP in Paris.

THE DELTONES current release is 'MAKE ME SMILE' B/W 'PATRICIA HAMILTON' on Unicorn records. For more info. on the band Contact: STEVE MORTON 01-831-2868.
